1980 ACCIDENT AND OPERATIONAL STATISTICAL DATA

INTRODUCTION

This year, MOTOR VEHICLE STATISTICS is presented in three parts. The first is a compendium of the latest accident data as it relates to that of previous years. Part two provides a more detailed review of the 1980 accidents themselves. Finally, part three offers frequently requested facts about driver licenses, vehicle and driver programs, registrations, motorboats, and snowmobiles.

The new state map, just inside the front cover, allows a pictoral comparison of county accident fatalities at a glance. Other unique information has been entered in the pedestrian, motorcycle/moped, and bicycle accident sections.

I am sure that you will find this edition of MOTOR VEHICLE STATISTICS to be a valuable reference. Please feel free to contact the DMV Office of Public Information if you have any comments or suggestions concerning this yearbook. Your views will be given careful consideration.

DRIVER SAFETY ACTIVITIES

Program Activity and Description	1980	1979
POINT SYSTEM		
The Department uses a system which applies point values to moving traffic violations to discourage repeated violations and to identify potentially dangerous drivers. A driver's record is charged with the appropriate number of points upon his conviction.		
Warning Letters. A warning letter is sent to a driver who has accumulated 4 to 6 points.		
Warning letters issued	135,589	185,600
Driver Safety Sessions. A driver who accumulates 7 to 10 points within an 18-month period may be required to attend a two-hour Driver Safety Session intended to improve the person's knowledge of traffic safety and attitudes toward driving. Probationary violators and junior licensees convicted of speeding also are required to attend a session.		
Notices sent	10,297	13,362
Number of Sessions held	353	499
Number of drivers who attended	6,032	9,833
Suspensions for failure to attend	612	378
SUSPENSIONS AND REVOCATIONS		
A suspension is the "temporary" recall of a driver's license for a specified period of time. A revocation is the "canceling" of a driver's license and requires that the person involved begin again with a new driver's license after he has served his period of revocation. Suspensions and revocations are issued as a result of mandated provisions of law based on driver convictions or are imposed at the discreation of the Commissioner based on deficient or dangerous driver actions.	See table of "Suspensions and Revocations" Page 81	
RECORD REVIEWS ON REAPPLICATION AFTER LICENSE REVOCATION		
When a person reapplies for a driver's license after revocation of his previous license, approval or denial of the new license is based on a review of the applicant's previous driving record and the seriousness of the various elements which make up that record.		
Total applications	33,019	34,373
Required Review Board interview	2,431	1,861
Required field investigation	39	1,179

DRINKING DRIVER PROGRAM

This is an educational/rehabilitative program, started in October 1975, for motorists convicted of alcohol or drug-related traffic offenses. Eligible motorists may participate in a seven-week, 16-hour educational course designed to help them recognize and deal with significant issues relating to drinking and driving. A participant whose record indicates that he will not be a danger on the highway is issued a "conditional license" which permits him to drive under the limited conditions stipulated on his license. A unique feature of the program is referral for professional evaluation and treatment of drivers with chronic, severe alcohol problems.

Records reviewed for eligibility	40,726	39,120
Candidates eligible for program	36,260	34,743
"Conditional" licenses issued	21,624	21,166

Begun July 26, 1976, this is a program for motorists who face financial hardship when their licenses are suspended or revoked for other than alcohol-related convictions.
